

EWCAP Specification for color stripe on wire harness convolute tubing. The colors correlate to the listed temperature classifications.

Temp Class	Approved Ambient Temperature Range	Stripe Color	Typical Application
T1	-40° C to + 85° C	No stripe	T1 is not recommended for new applications
T2	-40° C to +100° C	Gray	Typically suitable for use in passenger compartment
T3	-40° C to +125° C	Green	Typically suitable for use in engine compartment
T4	-40° C to +150° C	Yellow	Needed for some on-engine applications near hot components
T5	-40° C to +175° C	Violet	For use as needed
T6	-40° C to +200° C	Brown	For use as needed
